

Seatrans is committed to persistently pursue sustainable solutions throughout our business. By doing so we contribute to the UN Sustainable Development Goals.

The Materiality Assessment is the basis for the ESG process.

- We will regularly analyse, assess and update the Materiality Assessment.
- The factors deemed to be essential for the Company will be carefully analysed to establish the baseline and development of performance.
- In our ESG process, we will set targets and measure performance against these targets. The measured performance will be used to adjust course as required.
- We will communicate our ESG performance in an open and transparent way.
- The Company has appointed a Compliance Officer to monitor that the Code of Conduct and the Governance Policies are complied with.
